I hurt as if I have lost my blood relative. Dr. Dobson has cared for my children since the very beginning of their lives! He was more than just a doctor. He made us laugh when we needed it, he soothed our fears and gave elder advice and correction when it was necessary too. I appreciated Dr. Dobson because he could have gone anywhere but he stayed in our community with us and our kids. He proved to my boys in every visit that black men could be smart, articulate and accomplished with or without a ball. My teenager sat taller in the office with Dr. Dobson! He smiled harder, spoke with confidence! The littlest one always wanted to show what he learned since the last visit, how smart and how big he was now. I told myself that on the next visit I would tell him how much I appreciated him for being here with us, but the lesson again is to not put things off and to tell people you value them while you have them. Thank you Dr. Dobson. Sincerest condolences to his family friends and associates. -Erika, Marcel, Micah

I went to the office today because I received an email to confirm my appointment for my son Ashton. Arrived to find the office gone. Ashton googled and found out he passed away. I have been in total disarray all day. Dr Dobson took over that practice from Dr Anchalee who used to be my pediatrician. He's been all of the Roy kids pediatrician since 1997. Ashton is almost 18 and I always joked with him and the staff that we were almost at the end of the pediatric road for my family. We loved him so much. He kept us all in stitches and no one understood my sons care and treatment plan better than Dr Dobson. I hope he knows that his presence made a difference - especially to me and mines. The Roy's send all of our condolences to his loved ones and his staff. 🙏🙏🙏

I am so heart broken.. my last visit with him was in June for my daughter physical and he seem like his normal self cracking jokes as always. We loved Dr. Dobson as if he was a relative. I was one of his patients sine I was about 8 or 9 and he had to literally had to force me to stop coming to him because I was so old but once I had children they went straight to him and haven't been anywhere else other than him. I would drive from columbia once we move to make those appointments. I am so sad the patients weren't notified I would have loved to attend his homegoing service. At my daughters last visit he had a keychain from Australia on the office keys that I had gave him from when I visited Australia as a exchange student. I'm so sad and upset I pray that god cover his family, patients and especially the staff who all been there since day one also. He was such a good man and great doctor.

“ Eric was such a joy to be around. Some people didn't realize how witty he was. When he and Sarah celebrated their birthday party together, Sarah and I danced around him and dropped down to the floor (showing we still had it and could stoop low at our age). Eric pretended he was going to stoop as low as us, but he stooped as low as the chair next to him and sat down with such coolness. Everyone laughed. We had a great time. He will be deeply missed. God bless Sarah and family~ Love, Shirley Scott
