“ *Fannie was a big part of my life since I was a baby. After my Mom passed anytime I needed a mood lightened advice given, a story shared, a memory relived I could count on her. She was like a Mom to me and when I think of the good times Fannie, Mom and I shared going on our church trips, it makes me smile remembering them all. She will truly be missed.##imported-begin##Joan Butler Stanard##imported-end##*
