“ *I worked with Frank for several years in the car business. We were both veterans, were big into IT, and car buffs. He had a magnetic personality and I enjoyed talking about cars on the job, football banter, funny jokes, and talking about life over an occasional beer. Condolences to all that knew him and especially his family.*

“ I am so sorry to hear of Franks passing. I had the pleasure of knowing and serving with Frank in the Navy. We were both stationed at a base in Driver Virginia. Many great memories including climbing the base water tower and hanging our socks at the top. It was a bet with the other guys. We won the bet. I also had the opportunity to take Frank to my home state and stay at my parents house while visiting the sites. Frank always had a smile on his face, contagious laugh and had everyone in the barracks laughing. Many more good and funny time when we served together. May the pain of Franks passing bring some relief knowing he was a friend, colleague, fellow veteran, and bought smiles and memories to so many. It is a great pleasure to have known Frank

“ Frank was my very first true friend. Our friendship almost lasted 50 years. He will be sorely missed and my life will never be the same without him in it. My prayers go out to his family and all of his friends. I will be praying for his daughter Stephanie as there was never a time that we talked that he did not mention her. She was the love of his life. Frank was a good man and left his life far too soon. He will be loved forever. His dear friend Pam West.

“ I have known the Mitchum family since they live down the street from my parents on Indian Spring Drive. We have remained friends all throughout our years. Some of you may remember, after Frank got out of the Navy, he bought a Datsun B210 he affectionately called his "Cafe Racer", which he worked on constantly. Well, after midnight and several long hours of replacing the transmission in Mitch's apartment parking lot Frank and I had to take the car for a test drive!! He was so angry because the transmission fluid took so long to drip in the transmission because it was about 20 degrees out, that he said "I'm gonna beat the crap outtah this car now!" Well, he did just that and we went flying around Takoma Park in a whirlwind and just as we came around the circle back to the apartment Frank said "Was that a police car behind us?" to which I replied "Naaah..." Sure enough, we jumped out of the car and a Takoma Park Police Officer pulled in behind us. Well, because we were out of the car he could not give us a ticket. We were the ones that got away. So many stories to share :)
