“ *To: The Family of Joe Fletcher*

I was reading through information on line today and I see that Joe Flecher passed last week. I am so sorry to hear this news and I apologize that my message is belated. Joe was a very good friend of my father, Stanley O. Carroll. In recent years, Joe was still there to check on the family and to make sure all was well. He enjoyed fishing and telling stories with his buddies.

He as a good person. My thoughts and prayers are with the family.##imported-begin##Emily Carroll##imported-end##

“ *Fletcher was one in a million -- caring about the folks he worked with at the boatyard and sharing his knowledge and life experience, always with a smile.*

As someone who knew him for 27 years, I feel like I'm one of the "newer" friends because he has so many friends who knew him for a much longer time. Long-time friends are the best, and I feel privileged to have Joe as a friend -- even for a short 27 years.

With deepest sympathy to his family and many friends,
