“ *Dr. Easterling was a fixture within GPO with his gentle prowess and personal concern for GPO family. I understand this fact from personal experience. I am indebted to “Doc E” for the time he took concern in my health & well-being to ensure my ailments were investigated by John Hopkins staff personnel. My family and I will forever remember his due diligence and dedication he continually showed us. Rest easy Doc!*

“ What a wonderful teacher. Full of knowledge that he was always willing to share. Whenever I felt like I was lost, he always gave me words of encouragement and reminded me that I was a "soldier" and I could handle it. He was and will always be my "Encourgernator"...RIP Dr.E, I will miss you. Sharon C.

“ I will miss my friend. He was very kind and loved holiday parties. I would stop by his office and talk for hours. He was dedicated to the Medical Unit and was always talking of ways to improve. He always recognized others accomplishments with a card or a lunch.

He was very smart and had lots of good ideas. Rest in Peace the fight is over.

May God bless and keep you.

“ I worked with and at times for Dr. Easterling for close to 30 years at the U. S. Government Printing Office. He was warm, caring, and dedicated to the agency and its employees. He was always generous with his staff and truly cared about people. He was an avid fisherman which was one of his passions in life and he loved his children and family. He was someone you could always go to for advice even if it meant he had to stay late or give up lunch. He loved working at GPO and had a genuine respect for the employees and the agency.

You will always be in our hearts Dr. Easterling and you will not be quickly forgotten. GOD BLESS YOU!

Dr. R.L. Eufemia, U.S. GPO

Dr. Easterling you will be sorely missed. I met you over 15 years ago when I first came to GPO. One of my fondest moments that I will remember having with you was when I was returning back to GPO after four years away to the Uniformed Police Branch. However, the only obstacle in my way of returning was the physical agility test that I had to take. You told me that the powers to be had some concern about me passing the test , do to rumors that I had sustained a serious knee injury with my previous employer. This was Dr. E's second call to me to get reassurance that I could pass the test. I told him there was no way I would fail this test after almost 16 months of rehabbing. I told him I was the one applicant that would make him look like a genius in his medical recommendation. God Bless!!!! Sgt. Turner
